by

KOSTUBA

A LUXURY INDONESIA DMC

Indonesia's landmark destination, Bali is more than a place. It is a mood, a desire, and a tropical state of mind. It is one island, but also many destinations.

For most travelers, SOUTH BALI is their entry point. This area, well defined by Kuta, Legian, Seminyak, Jimbaran and Nusa Dua is one of the most popular beach destination in the world.

Two hours drive to the north will take travelers to UBUD, a cool and pleasant escape, rich in natural landscape, art and cultural encounters.

To the west of Ubud is BEDUGUL, home to Bali's most picturesque lake temple and a UNESCO World Heritage, Jatiluwih rice terrace. NORTH BALI is home to beautiful waterfalls and is especially popular for sunrise dolphin watching

On the extreme west of the island, WEST BALI hosts a beautiful lowland national park and the best snorkeling off the coast at Menjangan island. On the other side, EAST BALI is low-key, authentic, and quiet; a perfect leisurely escape.

TABANAN CLASSIC:

ULUN DANU BERATAN
LAKE TEMPLE,
JATILUWIH RICE TERRACE,
TAMAN AYUN TEMPLE,
and SUNSET AT TANAH
LOT TEMPLE

Experience the most visited sites of the region in one day. You will first encounter the famous temple seemingly floating by a beautiful lake bordered by the mountains. Continue to Jatiluwih, a beautiful rice terrace that is part of UNESCO World Heritage. Marvel at the royal temple formations at Taman Ayun. Finally, wrap up the day by visiting one of Bali's biggest temple, Tanah Lot, while watching sunset.

JATILUWIH

A UNESCO WORLD HERITAGE
with PRIVATE LUNCH

Located on the foothills of Mt. Batukaru, this 53,000 hectares area is home to Bali's most iconic rice terrace. In this trip, you will have the option to walk / cycle through the rice fields to observe local farmers and learn about the different kinds of rice planted here, which includes the high quality red rice.

At the end of the trek, you will be taken to The Artist's Corner, a private and hidden section up the small hill where you will enjoy lunch.

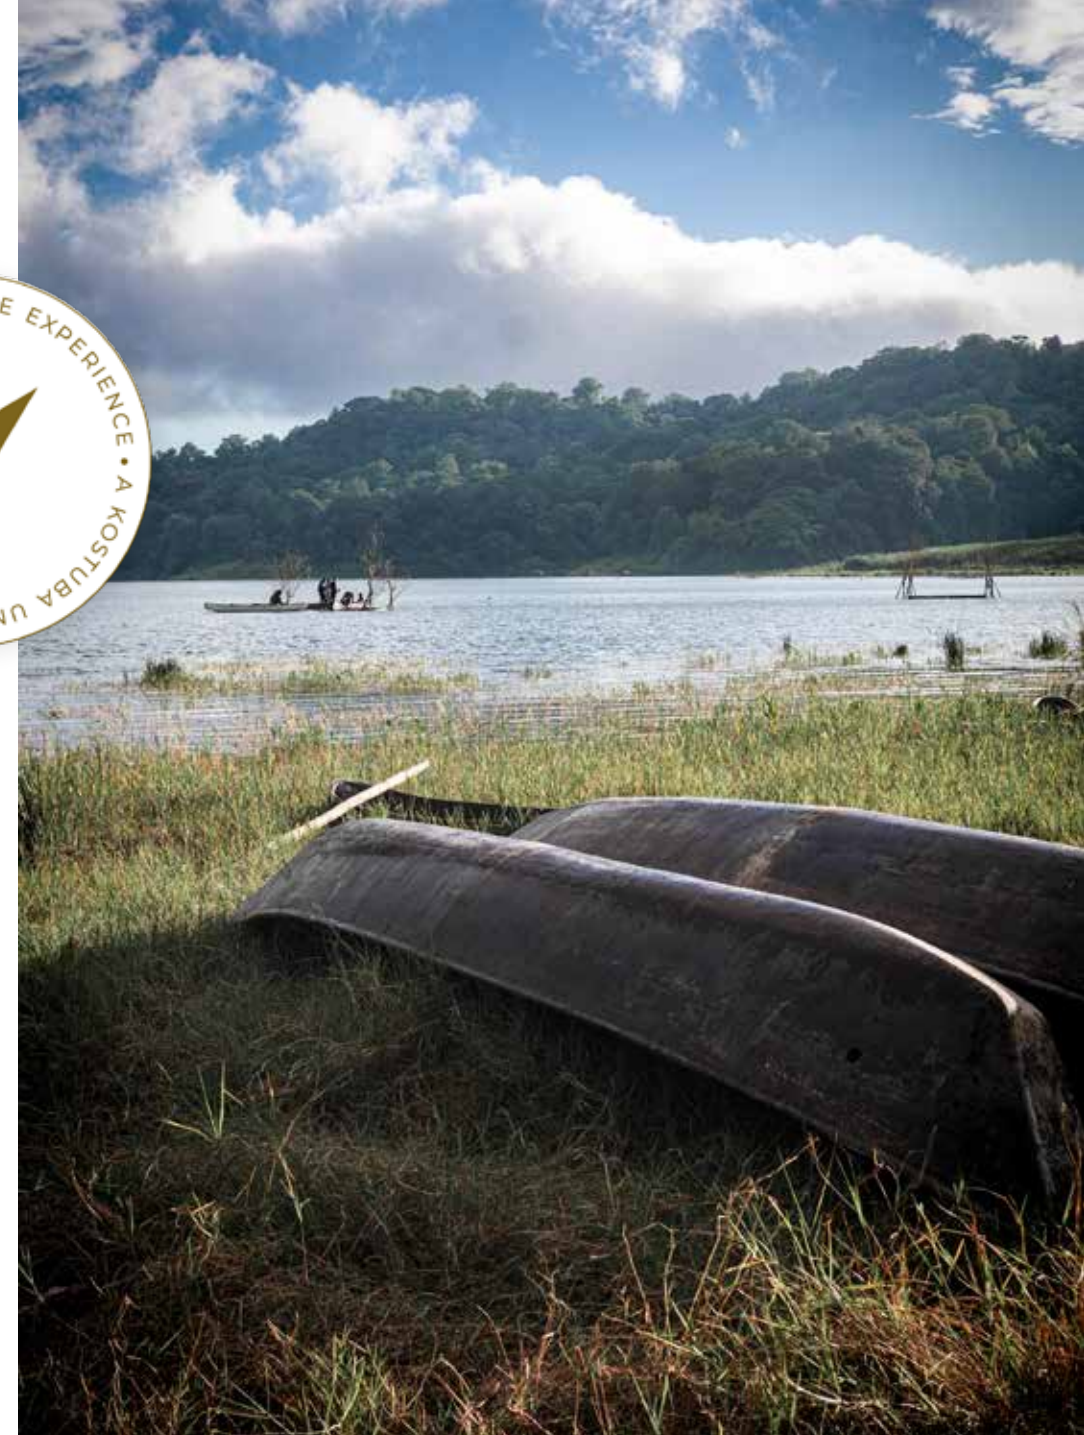

LAKE BERATAN

Located 1,200m above sea level, this beautiful caldera lake is home to one of the most iconic temple in Bali. We will take you beyond the usual tourist route, and that is with a traditional wooden boat to admire the temple from the waters. This will be followed by a gentle 20 minutes cruising, docking at the other side of the lake for morning coffee and snacks.

JUNGLE TREK & TWIN LAKE CANOEING

with a special Balinese Brunch

“The sounds of the forest make the trees here live and die.”

Find out the meaning of the phrase in this signature trip. You will experience a pleasant 1 hr trek through the jungle while learning about the sounds of the forest and its correlation to their circle of life. Your trek finishes at a lakeside, where you will board on a traditional wooden canoe and ride along the lake while marvelling at the beautiful panorama. At the end of the journey, you will disembark and enjoy a special Balinese al fresco brunch in the nature, where we set up the whole thing including your private chefs.

The Al Fresco Brunch option is an additional add-on item which you may choose to take or not depending on your preference.

THE WATERFALLS

at BANYUMALA, SEKUMPUL, NUNGNUNG, and LEKE LEKE

With numerous waterfalls available in the region, we have come up with the top 4 for you to choose.

Banyumala is great for those looking to swim at the waterhole, with the falls cascading gently along the rocky slope.

Sekumpul is a collection of many waterfalls, among Bali's highest, and is best if you are looking for adventure.

Nungnung is a singular waterfall dropping at a great force, which is perfect if you are looking for a more moderate trek.

Leke Leke is the smallest among them all, but is situated at a naturally carved grotto which made the scene extremely picturesque.

BARBEQUE & BONFIRE *by THE LAKE*

A special place for you to experience that classic vibe where you sit in a circle with the bonfire at the center while having barbeque dinner. Why not have some marshmallow and hot chocolate to end the night over stories with your loved ones?

COOKING CLASS & COFFEE PLANTATION *by Munduk Moding Plantation*

Rise up early and visit Munduk's coffee plantation, where we demonstrate and explain how coffee is grown, harvested, dried, cleaned, ground and prepared in the traditional manner – obviously using our own robusta and Arabica coffee.

Next, continue to the cooking class - offering a selection of Balinese specialties, with an emphasis on typical North Bali dishes.

A 35-acre forest with 17th-century Hindu temple ruins & hoards of tame grey macaque monkeys. Come watch them perform their natural antics in a quiet, relaxed and historic temple dating back to the 17th century. Step back in time and into the calm of Bali's Original Monkey Forest.

SANGEH MONKEY FOREST

HIKING PUNCAK MANGU & MT. CATUR

Among the many "high" temples on the island of Bali, some have exceptionally unique locations. One of them is Pura Pucak Mangu, situated in a highland area that is challenging to reach, far from the bustling crowds.

This intermediate level trek is typically accomplished within 7-8 hrs return and will require good fitness level. There are 3 different routes to visit the mountain and we can suggest the best trek depending on your preference.

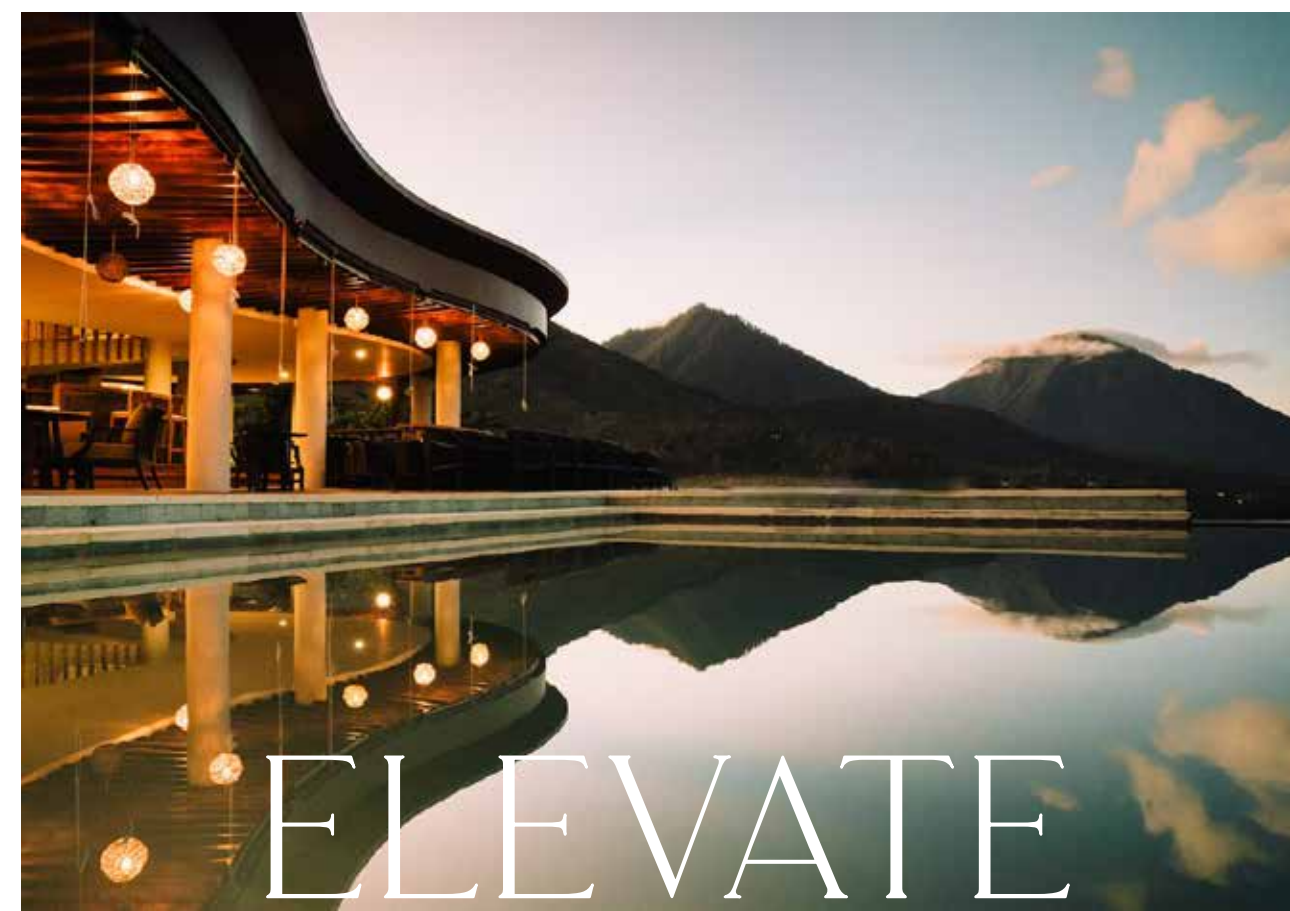

HANDARA GOLF

Spanning across 120 hectares of lush greenery in a serene mountain retreat, Handara offers a one-of-a-kind golfing experience. With 18 holes and numerous awards and championships under its belt, Handara's championship course is sure to leave you awe-inspired by its natural beauty and challenging terrain.

Please note that you may choose to remain on boat during dolphin tours if you do not wish to swim with them.

A DAY AS BALINESE VILLAGER

Head out to Bebetin, a traditional village located in North Bali. All activities here are customized according to preference, but they are all focused to immerse you into Balinese culture and daily villager's routine. This includes making offerings and praying, cooking class, market visit, plantation visit (and harvesting if the season is right), and playing kites. Best suited for families, this experience, albeit humble and simple, leaves a lasting memories.

The diving and snorkeling at Menjangan is exceptional. The abundance of marine life around this island - which lies within the boundaries of West Bali National Park - is staggering and the corals are bright and colorful. Turtles are fairly common, but so is pygmy seahorse, clownfish, sea fans, parrotfish and many more. With excellent visibility and impressive wall dives, this is one of Bali's premiere underwater spot.

We encourage sunrise walks to give you the best jungle experience and the highest chance to encounter the endangered Bali starling bird.

ULUWATU CLASSIC:

TEMPLE TOUR *and* KECAK PERFORMANCE

Visit Pura Uluwatu Temple is an iconic seaside pagoda that sits on a cliff, located in the far south corner of Uluwatu Bali.

This 1,000 year old Bali temple is one of the island's most famous tourist sights because of its impressive cliffs, sunset views, traditional Balinese 'Kecak' fire dance,

UNSEEN ULUWATU HISTORY

Follow the story of Dang Hyang Nirartha, a legendary religious figure who traversed the coastline of Bali and is said to be able to heal plagues with just a hair from his head.

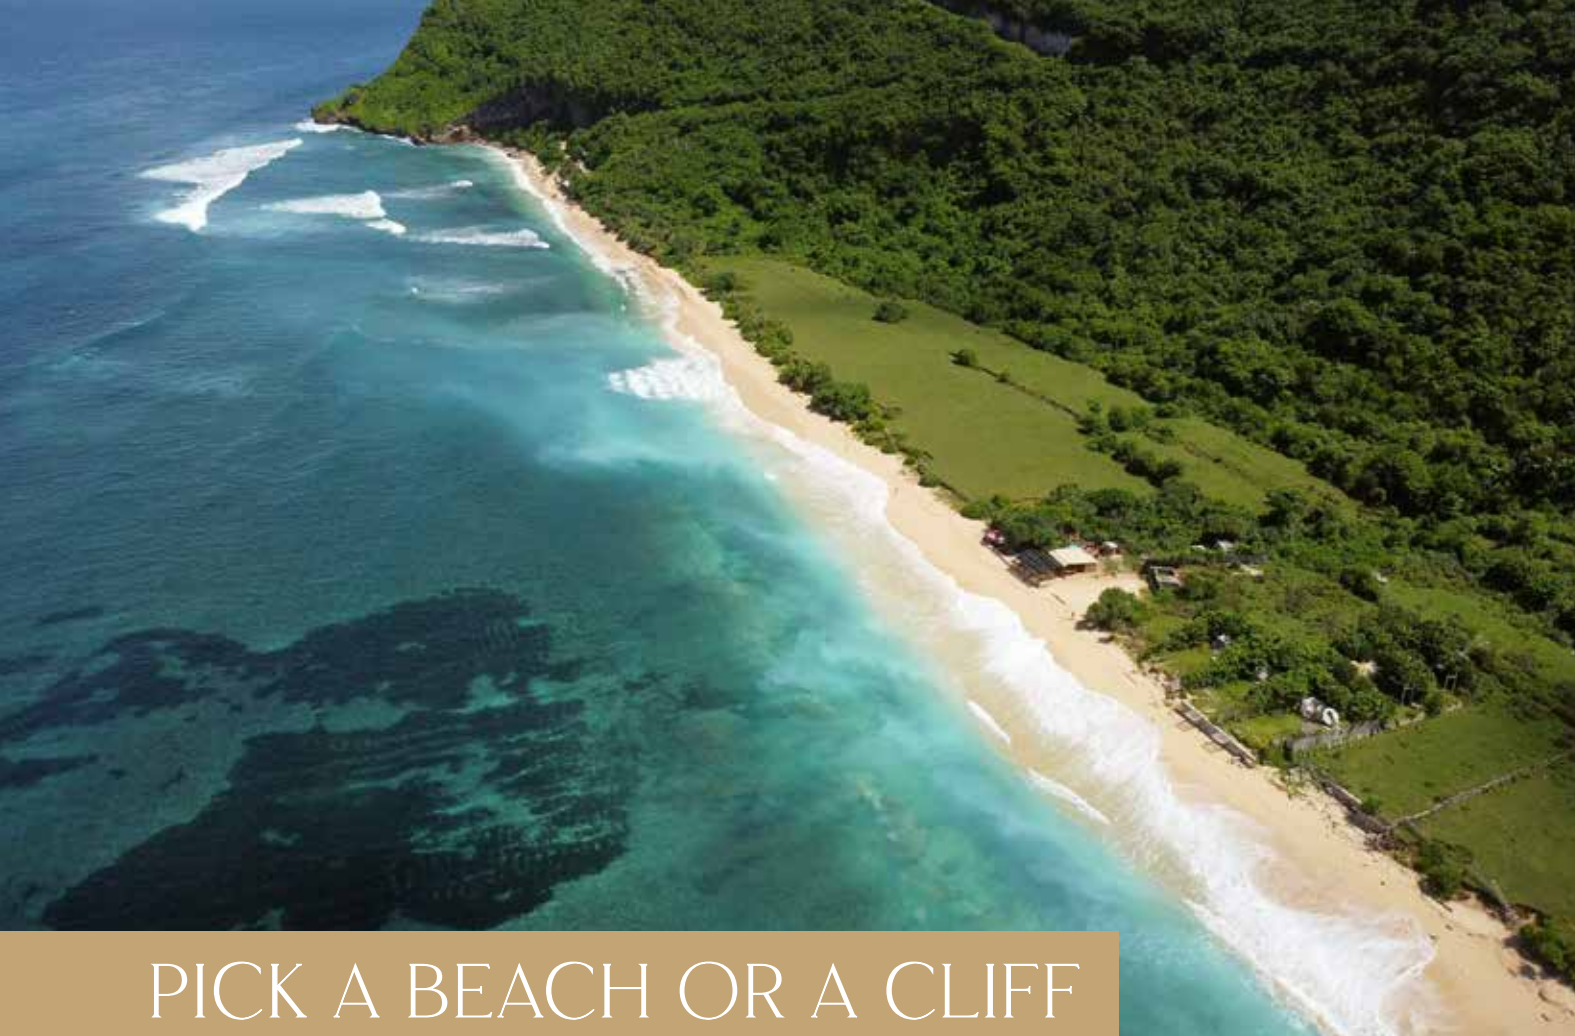

In this trip, we will go to the end of the road at Nusa Dua to visit Geger Temple Beach, where depending on the tide, you will be able to follow Balinese cleansing ritual at the beach and enter the small sacred cave of Beji Pemutih, the same place where Dang Hyang meditated.

Continue onwards to Gunung Payung Temple. This barren land was once where Dang Hyang stick his umbrella to the ground to magically create fresh water source.

We will then have lunch break at Melasti area, Bali's southmost beach. Here you will be able to stand at the absolute southernmost point of the island and admire the tall cliffs that made the geography of the area.

Finally, we will wrap the trip with a visit to Uluwatu Temple. On top of the temple tour, we will also show you the statue of Dang Hyang Nirartha himself, bringing an end to his footsteps in Bali.

PICK A BEACH OR A CLIFF & SOAK IN THE FEELING

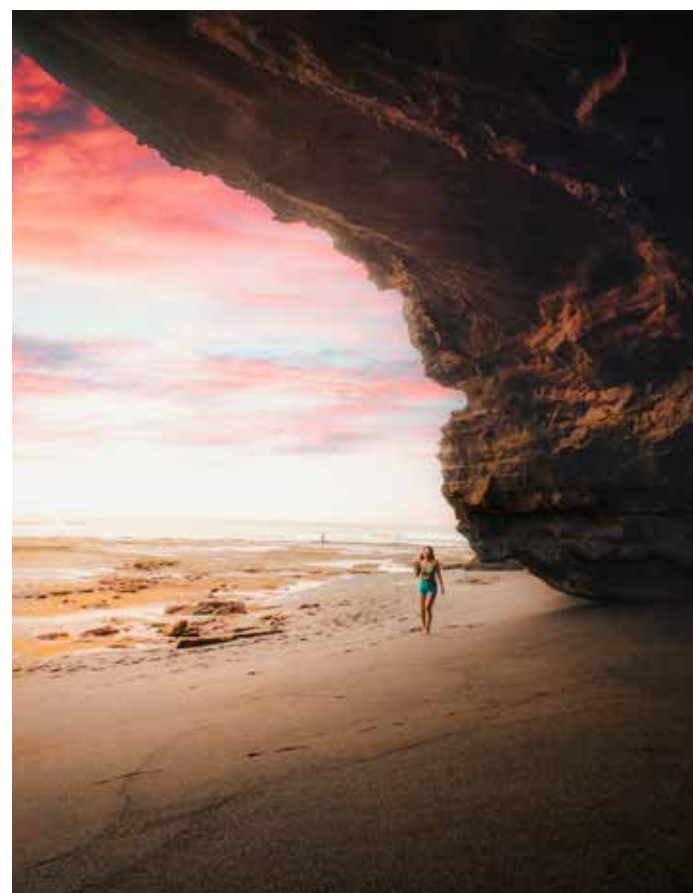

The Uluwatu peninsula hosts some incredible beach and cliffs.

Facing sunset, Padang Padang is the most accessible beach, while Suluban Beach requires many stairs trekking but has some of the most beautiful view. Thomas Beach is another great option for lounging, albeit requiring some steps down as well.

Facing the open ocean, Green Bowl, Nunggalan and Nyang Nyang Beach all requires significant trekking down the cliff but is all very beautiful, with Green Bowl in particular also hosting a beautiful cave.

Finally, among the numerous cliffs in the region, our favorite remains Jaran Hill, one of the best place to watch sunset in Uluwatu.

We can tailor the itinerary to these places depending on your preference.

PECATU INDAH GOLF

A 85 hectares championship standard course and the first links style layout in Indonesia. It will challenge both the low handicapper and reward the novice. With five sets of tees, there's enough variety to ensure a satisfying experience for all skill levels.

HELICOPTER RIDE ALONG THE ULUWATU PENINSULA

Jump on board and head to the skies for a helicopter tour over the Uluwatu Pensiinsula. In this trip, we will fly over the beachlines of Uluwatu cliffs, including some where we will fly low to get a better view of the coast. We will also fly near the tallest statue of Bali at Garuda Wisnu Kencana and Uluwatu temple to get some of the best view possible of the temple.

NUSA PENIDA

Beyond any doubt, Nusa Penida has, hands down, the best Bali's coastal landscape. However, despite being a hidden gem once, it is now one of the most challenging destination to visit. With thousands of daytrippers, our approach to Nusa Penida is to navigate away from the crowd to truly savor its landscape.

We only recommend this destination with the following approach:

1. Overnighting in Nusa Penida.

From Bali, private speedboats and yachts departs from Serangan / Benoa Harbour, while public speedboat departs from Sanur. A minimum of 2 nights is recommended for optimum experience, so we can have 2 mornings and 2 sunsets to visit the major sites (before the hoard of crowd arrives)

2. Daytrip with helicopter return transfer.

NUSA PENIDA BY HELICOPTER

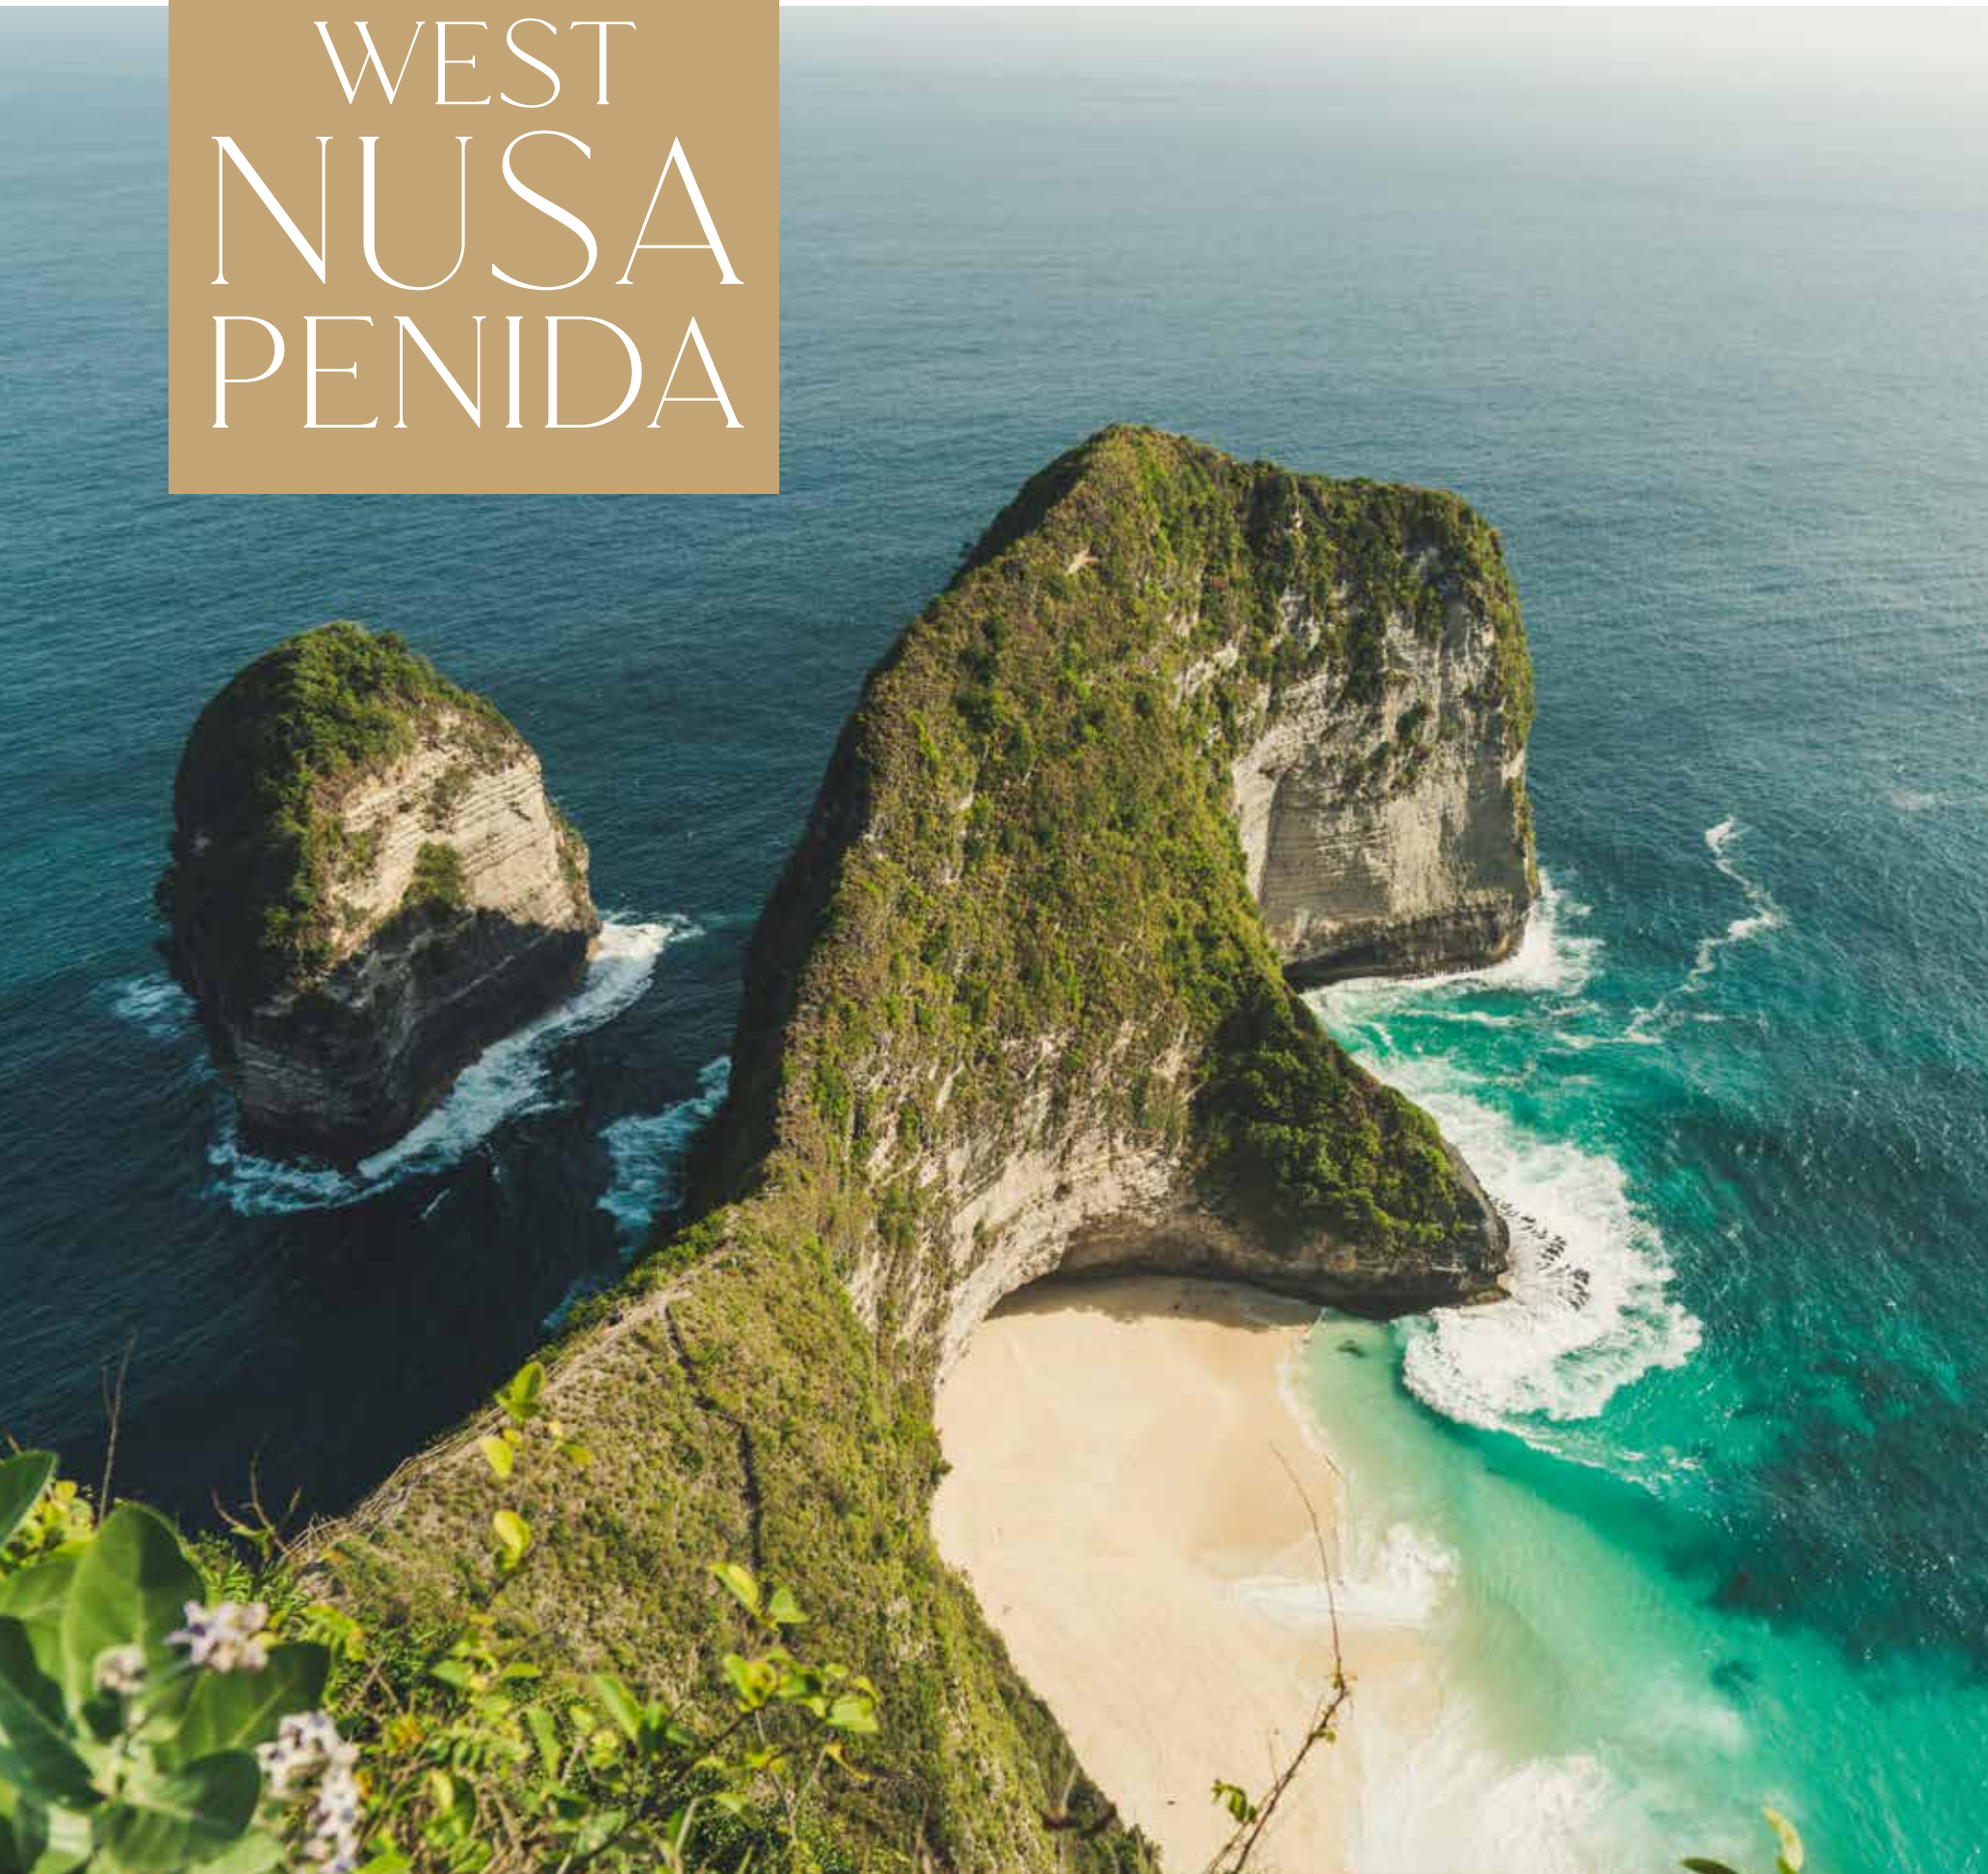

Journey by helicopter directly from South Bali to the picturesque island of Nusa Penida for an unforgettable trip.

Discover the island's most famous natural attractions and amazing viewpoints on the west / east coast. With this trip, we will take advantage of the helicopter by hovering above the west coast landscape to have a unique viewpoint and staying until sunset, ensuring that you will be able to experience 1 iconic site of your choice without the daytrippers crowd.

The journey will include lunch, all land transfers and excursions on Nusa Penida.

WEST NUSA PENIDA

The most famous part of Nusa Penida, in this section you will be able to explore several sites. First is Banah Cliff, a vantage point with limestone arch. Next is the famous Kelingking Beach, famous for its “Cap de T-Rex” natural formation and the infamous trek down to the beach.

From here, Angel’s Bilabong and Broken Beach is another fantastic site to see. This naturally formed hole with suspended rocks creating a natural arch and the naturally formed swimming lagoons are not to be missed. It is also possible to snorkel off the coast here in the morning as they are often frequented by mantas.

Pasih Andus is the next possible site to visit, a rocky outcrop with extremely big waves that would shoot water very high up the sky, creating a smoke-resembling mist (hence the popular name “Smokey Beach”). Finally, Crystal Bay and Gamat Bay consists of black-sand beach and fantastic snorkeling / diving location.

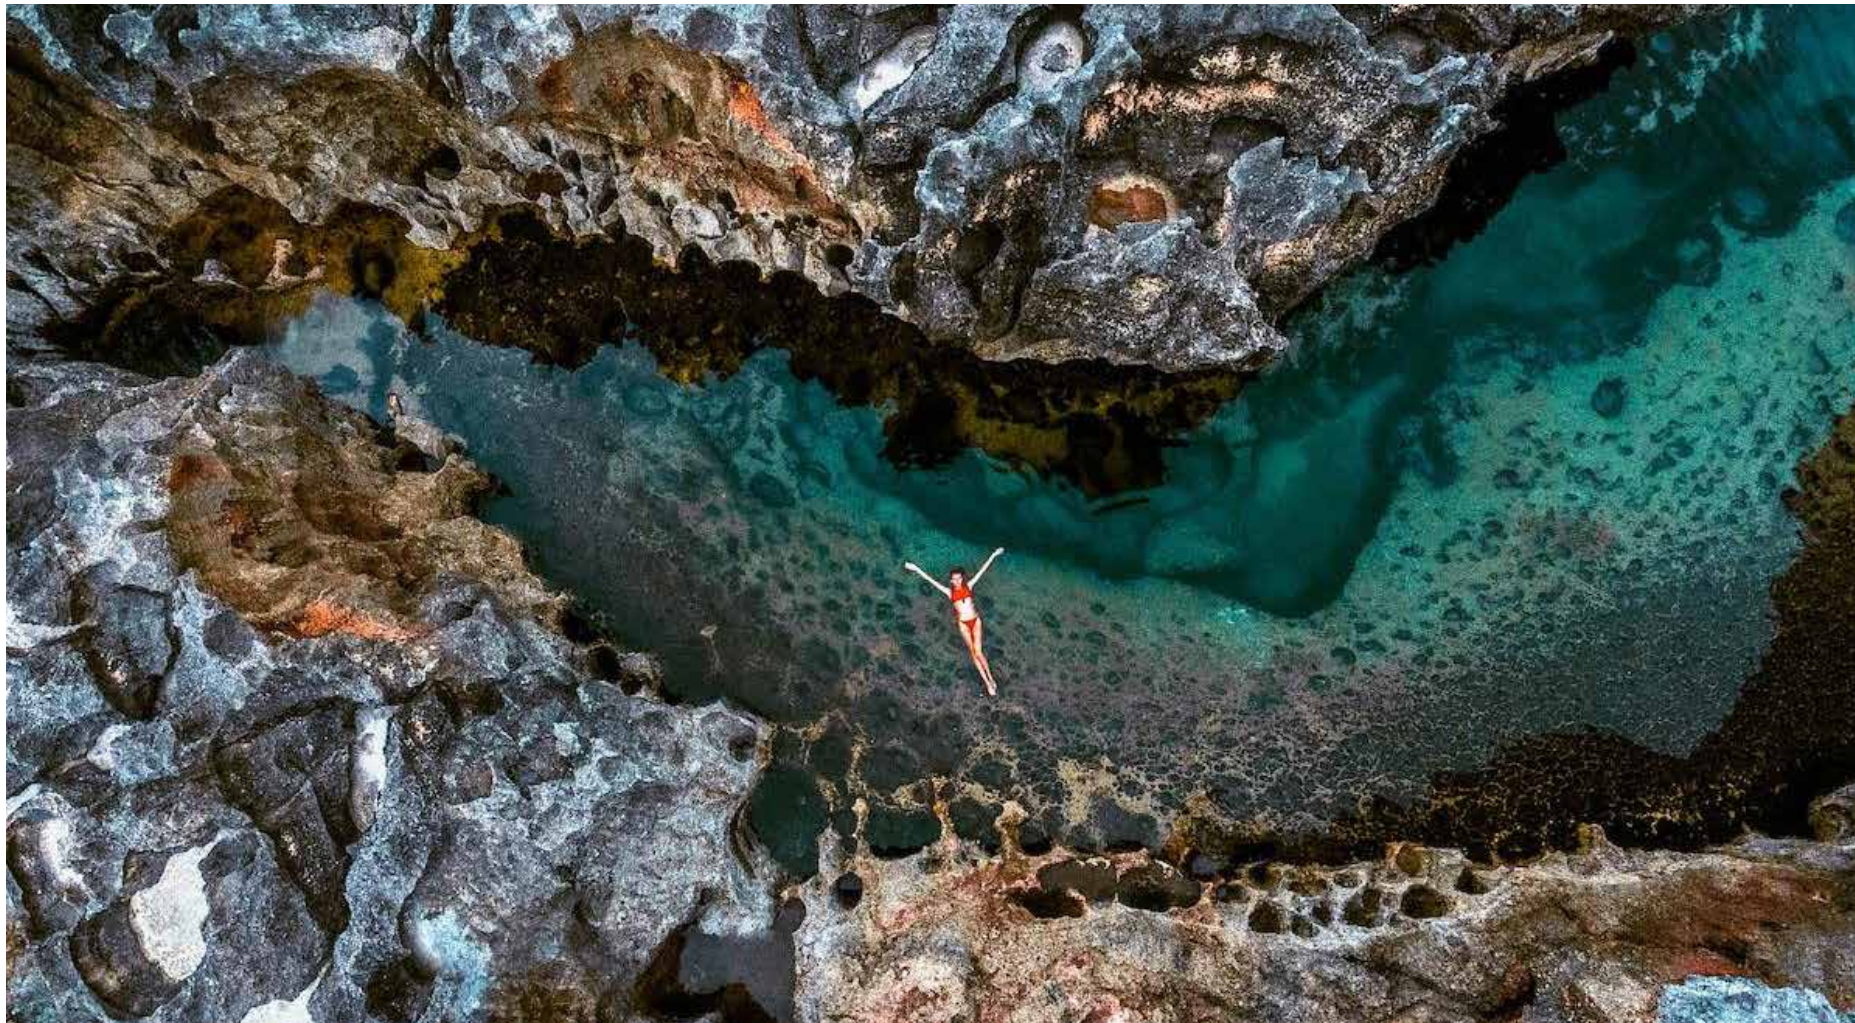

Note:

1. This area is extremely popular and crowded between 10-4pm with thousands of daytrippers arriving at the same time. We do not recommend visiting West Penida on a daytrip.

2. Safety is our priority. In many spots, we will ask you not to go to certain areas just to get a good Instagram shot. Waves around Nusa Penida is not a joke and can, within seconds, become imminent danger.

3. Descending and ascending at Kelingking Beach is almost a full day activity in itself. Those wishing to do this will only be able to do so if they are not visiting any other sites in Nusa Penida at that day.

4. Snorkeling off Broken Beach and Gamat Bay can only be done with a boat trip and is reserved only for confident swimmer. The water is not calm and sometimes have active currents.

EAST NUSA PENIDA

Our favorite part of the island, East Penida is less frequented compared to the west and has, arguably, a better balance of both nature and culture experience.

Nestled inside the largest cave on Nusa Penida Island, the Goa Giri Putri temple holds great significance for Balinese devotees. The spring water flowing through the temple is believed to be imbued with natural healing properties, making many Hindu people go seeking its curative powers. It has an astounding entrance: an extremely tight and small hole opening up into a massive cave.

Afterwards, Thousand Island is another site not to be missed. Made famous by the treehouse, this is one of the best place to see numerous limestone formations and steep rocky walls, altogether creating a picturesque view. Walk along the ridge and you will have the option to descend into Diamond Beach or Atuh Beach.

OUT OF
DAYTRIPPER'S
REACH :

SOUTH & CENTER
NUSA PENIDA

The last remaining section untouched by daytrippers, this region screams adventure and jawdropping views.

Bordered by two very tall cliffs, Tembeling is a region well known for its cool and shaded forest. Entering this area, you will feel very different climate compared to the rest of the island. At the end of the forest walk, a refreshing natural pool and a serene seaside spot awaits, a truly rewarding sight after the trek.

Next, Peguyangan Waterfall is a group of tiny falls and natural pools at the bottom of some cliffs in Nusa Penida, and you reach it by climbing down hundreds of steps on a bright blue stairway. Its steepness, overall height and view makes it one of the craziest hikes in Bali, but the view is completely out of this world. At the bottom of Peguyangan cliff, there's a Hindu temple and a few waterfalls and pools where you can swim and cool off before hiking back to the top.

Finally, at the heart of the island, Pura Puncak Mundi sits at the highest point of the island. Consisting of three complex, explore this mystical temple, which includes the rarely visited Kerangkeng Temple.

Note:

Peguyangan Waterfall trek is very arduous and for safety reason, is not recommended for guests weighing above 80kgs. Proper footwear is a must and we will insist that you do not wear flip flops for this trek.

SNORKELING & DIVING at NUSA PENIDA

Numerous snorkeling and diving sites are available in the island. Most are concentrated on the west and north side of the island, and this is also where many dive to encounter one of the most elusive diving attraction in Bali, the sunfish / mola mola. We can arrange snorkeling and diving trips in Nusa Penida based on your preference and certification.

ROBINSON CRUSOE DINNER EXPERIENCE AT PANDAN BEACH

20-30 minutes trek away from Crystal Bay, Pandan Beach is a secluded beach where we will setup a barbeque dinner and bonfire. Reserved only for adventurous travelers, this experience will elevate the sensation of being "casted away" in a remote island.

Note: This is a wild experience and although you will be guided throughout the trip you will essentially be walking in the dark on the return trek after dinner. There will be no toilet facility will be available for this trip. Overnight in Penida is required to do this trip and we recommend starting near sunset time to be able to see the wonderful view at the halfway point of the trek. Proper footwear is recommended.
